

Smeaton Vaults

FEATURES

The Smeaton Vaults are unique vaulted rooms with modern features for 110 guests. The Smeaton Vaults is one of the most unique spaces for wedding parties available at The Brewery. Originally copper lined and used for storing beer these rooms feel extremely light and airy thanks to the bright contemporary decoration and the huge vaulted ceilings. Copper pipes around the walls and the original iron walkway reveal their brewing past but in reality these rooms couldn't be more modern.

Similar to the Sugar Rooms the Vaults are made up of two spaces, The King and Queen Vault, that are used in conjunction with each other to host all the stages of your wedding day. Built in DB audio pa system. Air conditioned Ambx LED lighting in both spaces provides room wash and highlights the vaulted ceiling and dance to your music. Fixed hanging points in the King Vault for additional lighting can be easily added to the room.

CAPACITY

Ceremony	110
Dinner 700	110
Dinner/Dance	110
Reception	110
